

# WHY YOU SHOULD CONSIDER STORING GOLD (VAULTED GOLD) IN SWITZERLAND

Switzerland is one of the most stable countries in the world today - both politically and economically, and is emerging as the preeminent precious metals trading and storage hub in Europe.

Today there is a growing move to own gold outside of massively indebted and near insolvent banks and sovereigns. This trend looks set to continue given the very poor state of most nations and Switzerland looks set to be one of the safe havens in this world.

## Why, how and what are the benefits:

1. **Why Switzerland?** Switzerland is one of the most stable countries in the world today - both politically and economically.
2. **Switzerland's Precious Metals Hub:** Switzerland is fast positioning itself as the global precious metals trade hub.
3. **Global Financial Hub:** Switzerland has the largest pool of private banking assets in the World, with US\$516 billion in 2011.
4. **Key Benefits of Storing Bullion in Switzerland:** Favourable Tax Treatment, Leading Storage Providers, Pools Of Liquidity, Refining Capacity, World Class Physical Infrastructure.
5. **Steps to owning Gold in Switzerland:** Keep it in an allocated account in a fully insured vault in Switzerland, if you wish, deep in the mountains.
